- Objective** After ten years of self-taught and self-motivated work with computers and the world wide web, I am ready to take my design degree out into the real world and find an interesting and creative career alongside a team of web professionals making usable, beautiful, engaging things.
- Education** **University of California, Los Angeles** 2003 – 2007
Degree Bachelors of Arts in Design | Media Arts
Summa Cum Laude
Grade Point Average 3.925
- Experience**
- PeaceOverViolence.org** Summer 2006 — ongoing
Custom content management system in Ruby on Rails as well as dynamic Flash movie players and slideshows. Worked with RMCD to incorporate the new branding, launched in October 2006. We launched the sister site, denimdayinla.org, in April 2007.
- Rebeca Mendéz Communication Design** Spring 2006 — ongoing
Custom content management system in Ruby on Rails at both rebecamendez.com and rebecamendezdesign.com, with smart file management and a simple image request application.
- TheMightyPsi.org** 2005 – 2007
Custom content management system in Ruby on Rails. A large, multiuser private section, with access control, attendance tracking, and various data exporters, I designed to be used long after I graduated.
- Processing.org** Summer 2005 – Winter 2005
Moved the existing Processing web site to web standards, first porting the XML-based content management system from perl to PHP, and recoding all the templates to a CSS-based layout.
- UCLA Department of Special Collections** Spring 2005 – Spring 2007
Public service assistant, which entailed patron supervision, photocopying and scanning (with some image manipulation), invoicing and mailing, and preparation of rare and special materials for storage and transportation.
- Miscellaneous** Regents Scholar 2003 – 2007 • Teaching Assistant at the UCLA D | MA Summer Institute in 2006 & 2007 • Secretary of the Psi chapter of Kappa Kappa Psi in 2005 & 2006 • Drum Major of my high school marching band
